

DR. KIMBERLY A. BARBER

Kimberly Barber started her higher education career in 1996 when she joined the Office of the University Registrar at Florida State University. Successive promotions culminated in her selection as the University Registrar in 2007, a position she still holds. She served as the student records lead for the successful implementation of Oracle's Campus Solution student information system that went live in Fall 2013. She is currently chairing several workgroups that focus on academic continuity operations during the COVID 19 pandemic.

Barber has been active since 2001 in regional, state and national professional associations and has made numerous presentations at annual meetings and workshops. She has served multiple times as a program committee member for the Southern Association of Collegiate Registrars and Admission Officers, chairing the Information Technology Program committee in 2006 and serving as the vice president for Information Technology from 2018 to 2020. She has also served on the Executive Committee for the Florida Association of Collegiate Registrars and Admission Officers, culminating in her tenure as president of the state association in 2007 and immediate past-president in 2008. Over the course of her university career, she has served on numerous Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) accreditation committees, successfully authored significant university responses for three fifth-year reports and two 10-year reaffirmation reviews. She is current assigned to the current 10th year review that is underway.

Barber serves in a volunteer capacity as the chief operating officer on the Board of Directors for GRC Dogsports, Inc., an internationally recognized up and coming dog sport organization. She is also the owner and trainer of Livable Dog, LLC, a dog training company located in the Tallahassee area providing personal, in-home dog training lessons.

Barber graduated from Florida State University in 1991 with a bachelor's degree in English. In 1996, her return to the university as an employee also prompted a return to the classroom as both a graduate student and later as an instructor. She completed her master's degree in Instructional Systems in 1996 and earned her Ph.D. in Instructional Systems in 2013.
