

Curriculum Vitae
Michelle S. Parvatiyar

Last Revised: January 09, 2024

General Information

- University address: Health, Nutrition, and Food Sciences
College of Education, Health, and Human Sciences
107 Chieftan Way
Florida State University
Tallahassee 32306-FL
Phone: 3057816189; Fax: 8506444961
- E-mail address: mparvatiyar@fsu.edu
- Web site: <https://humansciences.fsu.edu/nutrition-food-exercise-sciences/faculty-staff/parvatiyar/>

Professional Preparation

- 2009 PhD, University of Miami. Major: Molecular and Cellular Pharmacology.
Heredity cardiomyopathies. Supervisor: James D. Potter, Ph.D.

Parvatiyar, M.S. (2009). *Predicting cardiomyopathic phenotypes by altering the calcium affinity of troponin C.* (Doctoral dissertation, University of Miami).
https://scholarlyrepository.miami.edu/oa_dissertations/292/.
- 2000 B.A., Thomas More College. Major: Biology. Supervisor: William Bryant, Ph.D. magna cum laude.

Nondegree Education and Training

- 2018 Research Project Scientist, College of Medicine, Department of Dermatology, University of California, Los Angeles.
- 2013–2018 Research Project Scientist, Dept of Integrative Biology and Physiology, University of California, Los Angeles.
- 2011–2013 Postdoctoral Fellow, Dept of Anesthesiology, David Geffen School of Medicine, University of California, Los Angeles.

2009–2011	Postdoctoral Fellow, Dept of Molecular and Cellular Pharmacology, Miller School of Medicine, University of Miami.
2002–2004	Ph.D. student in the Department of Molecular Genetics, Biochemistry and Microbiology, University of Cincinnati, College of Medicine.
1999–2002	Research Assistant, Dept. of Molecular and Cellular Physiology, University of Cincinnati, College of Medicine.

Professional Experience

2018–present Assistant Professor, Health, Nutrition, and Food Sciences, Florida State University.

Honors, Awards, and Prizes

FSU Provost's Faculty Travel Grant, Florida State University (2019). (\$1,000).

AHA-FIT Fellows in Training Program (Western States Affiliate), American Heart Association (2017).

CDMD Muscle Cell Biology and Disease Annual Scientific Retreat Session - 1st Place Postdoctoral Poster Competition, University of California-Los Angeles (2016).

CureDuchenne Postdoctoral Fellowship Award, CureDuchenne - Center for Muscular Dystrophy Disease (2014). (\$25,000).

Predoctoral Travel Award, University of Miami (2009). (\$1,000).

Undergraduate Research Fellowship, Cincinnati Children's Hospital Medical Center (1998). (\$8,000).

Current Membership in Professional Organizations

International Society of Heart Research
The American Heart Association
The American Physiological Society
The Biophysical Society
The Cardiac Muscle Society

Teaching

Courses Taught

Functional Anatomy and Physiology II (PET3323C) (2018), Sections 011 and 012

Functional Anatomy and Physiology II (PET3323C) (2019), Sections 011 and 012
Functional Anatomy and Physiology II (PET3323C) (2020), Fall - Sections 009 and 010
Functional Anatomy and Physiology II (PET3323C) (2021), Spring - Sections 0001, 011 and 012, Fall - Sections 0001 and 0012
Functional Anatomy and Physiology II (PET3323C) (2022), Spring - Sections 0001 and 012
Functional Anatomy and Physiology II (PET3323C) (2023), Fall - Sections 002
Functional Anatomy and Physiology II (PET3323C) (2024), Spring - Sections 001 and 012
Advanced Topics - Human Physiology I and II (PET6931) (2019) Fall - Sections
Advanced Topics - Human Physiology I and II (PET6931) (2021) Fall - Sections
Advanced Topics - Graduate Grant Writing (PET6931) (2023) , Summer B
Human Physiology A - Cardiovascular and Cell Physiology (APK 6178), Fall -Section
Sarcospan & Metabolism (HUN6906)
Protein Expression in Ischemia (HUN5906)
Honors Work in Behavioral Science (BMS4901)
Honors Work in Biological Science (BSC4970)
Honors Work in Biomedical Sciences (BMS4903)
Directed Individual Study (HUN4905)
Cytokine Analysis for Lab (BSC4900)
Directed Individual Study (BSC4900)
Supervised Research (HUN6911)
Cardiomyopathy Research (BMS4901)

Management of Multiple Course Sections

Anatomy and Physiology II (PET3323C)

Doctoral Committee Chair

Mohammadipour, N., doctoral candidate.
Olateju, B. S., doctoral candidate.
Rahimi Kahmini, A., doctoral student.
Matthews, A., doctoral candidate.

Doctoral Committee Member

Centner, A., graduate. (2022).
Zheng, J., doctoral candidate.
Azeez, T., doctoral candidate.
Chen, L., doctoral candidate.
Gholami Tilko, doctoral student.
Shiel, E., doctoral student.

Master's Committee Chair

Samarah, L., student. *A Role for Sarcospan in NLRP-3 Inflammasome Activation.*
Reis, G., student.

Master's Committee Member

Deacon, C., student.

Bachelor's Committee Chair

ElSheikh, S., graduate. (2020). *The impact of sarcospan deletion on the ER stress response in obese mice.*
Wacker, A., graduate. (2020). *Understanding Sarcospan Protein Function by Exposure of Mice to Beta-Adrenergic Stress.*
Crawford, R., student (2022). *Elucidating the systemic consequences of sarcospan ablation in inflammation.*

Bachelor's Committee Member

Hall, S. E., graduate. (2022). *The Study of Interactions between Gene Delivery Nanoparticles and Surface Coatings.*
Patel, D., graduate. (2022). *Characterization of lung cancer mechanosensation.*
Meinert-Spyker, E., graduate. (2021). *Studying the interactions between surfaces and polymer- and lipid-based nanoparticles for localized delivery of therapeutic nucleic acids.*
Buro, S., graduate. (2023). *The Study of Interactions Between Cells and Surface Coatings for Applications in Gene Delivery.*
Louah, Z., graduate. (2023). *2-D Gel Electrophoresis Analysis of Troponin I Isoform Switching in Wild Type and Hypertrophic Cardiomyopathy Mice Bearing the TnC-A8V Variant.*

Supervision of Student Research Not Related to Thesis or Dissertation

Oko, C. (Oct 2023–present).

Patel, S. (Aug 2021–present).

Olmo-Rodriguez, V. (Aug 2022–May 2023).

- Uh, R. (Aug 2022–May 2023).
- Mumbi, F. (Sep 2021–May 2023).
- Florence, J. (May 2021–May 2023).
- Suarez, J. (Dec 2021–May 2022).
- Kwiat, V. (Aug 2021–May 2022).
- Cox, A. (May–Sep 2021).
- Missey, E. (May–Sep 2021).
- Mumbi, F. (May–Aug 2021).
- Crawford, R. (Aug 2019–Aug 2020).
- King, K. (Dec 2018–May 2020).
- Wacker, A. (Nov 2018–May 2020).
- Craddock, A. (Feb–Oct 2019).
- Collado, J. (2015–18).
- Gopal, J. (2014–17).
- Ferrel, A. (2014–16).
- Sowmendran, T. (2013–16).
- Nguyen, R. (2013–15).
- Richardson, V. (2013–15).
- Lopez, T. (2012–14).
- Kolmakova, M. (2011–12).
- Lim, S. (2011–12).
- Chavez, J. (2008–09).

Arita, A. (2004–06).

**Guest Lecture - HUN 5802L - Research Design & Methodologies - Invited by Instructor:
Dr. Bahram Arjmandi**

Parvatiyar, M. S. (2022). *Parvatiyar Laboratory Research Interests*. Florida State University.

Parvatiyar, M. S. (2021). *Parvatiyar Laboratory Research Interests*. Florida State University.

Parvatiyar, M. S. (2020). *Research in the Parvatiyar Lab*. Florida State University.

**Guest Lecture - HUN 5802L - Research Design & Methodologies, Invited by Instructor: Dr.
Luyao Ma**

Parvatiyar, M. S. (2023). *Parvatiyar Lab Research Presentation*. Florida State University.

**Guest Lecture - Responsible Conduct in Research, Invited by Instructor: Dr. P. Bryant
Chase**

Parvatiyar, M. S. (2020). *Underrepresentation of Women in the Sciences*. Florida State University.

Panel Discussion (HOE6366), Invited by Instructor: Dr. Michael Delp

Parvatiyar, M. S., Steiner, J., Gazelle, H., & Wu, J. (2019). *Women - Careers in Science*. Florida State University.

Research and Original Creative Work

Parvatiyar, M., & Goldberg-Smith, P. (Eds.). (2019). Trainee in the Spotlight, "Michelle Parvatiyar, Mentor in the Making [Monograph]. *Circulation Research*, 124, 475-476.

Presentations

Invited Presentations at Conferences

Parvatiyar, M. S., Singh, R., Brundage, E., Whitson, B., Janssen, P., Besiadecki, B., & Pinto, R. (presented 2019, February). *Beta-myosin heavy chain post-translational modifications in failing and non-failing human hearts*. Presentation at Biophysical Society Meeting, Biophysical Society, Baltimore, MD. (International)

Parvatiyar, M. S. (presented 2017, November). *Enhancing cell membrane stability and cell adhesion as a strategy to ameliorate cardiac disease*. Presentation at CDMD Muscle Biology and Disease Annual Scientific Retreat, UCLA Center for Duchenne Muscular Dystrophy, Los Angeles, CA. (Local)

Richardson, V., Parvatiyar, M. S., Marshall, J., Nguyen, R., Jordan, M., Roos, K., & Crosbie-Watson, R. (presented 2015, April). *The role of sarcospan in cardiac sarcolemma organization and function*. Presentation at Experimental Biology Meeting, American Physiological Society, Boston, MA. (International)

Parvatiyar, M. S. (presented 2014, November). *The role of sarcospan in the cardiac hypertrophic response (Invited Oral Presentation); UCLA Center for Duchenne Muscular Dystrophy*

Retreat. Presentation at CDMD Muscle Biology and Disease Annual Scientific Retreat, UCLA Center for Duchenne Muscular Dystrophy, Los Angeles, CA. (Local)

Invited Presentations at Symposia

Olateju, B., & Parvatiyar, M. S. (presented 2023, March). Examining the Response of Young and Aged Sarcospan-Deficient Mice in Diet-Induced Obesity. In Li Cui, Morris K, Watso J (Chair), *College of Health and Human Sciences Research Showcase 2023*. Presentation at the meeting of Florida State University, Tallahassee, FL. (Local)

Rahimi Kahmini, A., & Parvatiyar, M. S. (presented 2023, March). Investigating the Sarcolemma-Sarcomere Connection in Dictating Force Transmission in the Heart. In Li Cui, Morris K, Watso J (Chair), *College of Health and Human Sciences Research Showcase 2023*. Presentation at the meeting of Florida State University, Tallahassee, FL. (Local)

Reis, G., & Parvatiyar, M. S. (presented 2023, March). Sarcospan-Deficient Female Mice are Prone to Diet-Induced Autoimmunity. In Li Cui, Morris K, Watso J (Chair), *College of Health and Human Sciences Research Showcase 2023*. Presentation at the meeting of Florida State University, Tallahassee, FL. (Local)

Parvatiyar, M. S., Brownstein, A., Collado, J., Gopal, J., Kanashiro Takeuchi, R., Dieseldorfff Jones, K. M., Hammond, K., PIto, J., & Crosbie-Watson, R. (presented 2017, November). Sarcospan rescue of cardiac function in Duchenne muscular dystrophy models depends on recruitment of sarcolemma proteins. In Crosbie-Watson, RH (Chair), *CDMD Muscle Biology and Disease Annual Scientific Retreat*. Poster presentation at the meeting of Center for Duchenne Muscular Dystrophy, UCLA, Los Angeles, CA. (Local)

Parvatiyar, M. S., Nguyen, R., Jordan, M., Roos, K., & Crosbie-Watson, R. (presented 2016, November). Sarcospan has a protective effect during the development of cardiac disease. In Baum, Linda (Chair), *CDMD Muscle Biology and Disease Annual Scientific Retreat*. Presentation at the meeting of Center for Duchenne Muscular Dystrophy, UCLA, Los Angeles, CA. (Local)

Parvatiyar, M. S., Nguyen, R., Gopal, J., Jordan, M., Brownstein, A., Roos, K., & Crosbie-Watson, R. (presented 2016, February). Sarcospan protects the myocardium during development of cardiac disease. In Spencer, M (Chair), *Muscle Biology and Disease Annual Scientific Retreat*. Presentation at the meeting of Center for Duchenne Muscular Dystrophy, Los Angeles. (Local)

Parvatiyar, M. S., Marshall, J., Jordan, M., Nguyen, R., Roos, K., Martinez, L., Spencer, M., & Crosbie-Watson, R. (presented 2013, October). Loss of sarcospan has a deleterious effect on cardiac function in aged mice. In Pyle, April (Chair), *CDMD Muscle Biology and Disease Annual Scientific Retreat*. Presentation at the meeting of Center for Duchenne

Muscular Dystrophy, UCLA, Los Angeles, CA. (Local)

Parvatiyar, M. S., Pinto, J., Jones, M., & Potter, J. (presented 2008, May). Functional characterization of cardiac troponin C mutations linked to HCM. In *Graduate Student Forum*. Poster presentation at the meeting of University of Miami School of Medicine, Miami, FL. (Local)

Refereed Presentations at Conferences

Olateju, B., Kahmini, R., Valera, I., Reis, G., Samarah, L., Mumbi, F., Mohammadipoor, N., & Parvatiyar, M. S. (accepted). *Assessment of the Response of Young and Aged Sarcospan-Deficient Mice to Nutrient Excess*. Poster presentation to be given at American Physiological Society Summit, American Physiological Society, Long Beach, CA. (International)

Patel, S., Florence, J., da Santos, G., Coscarella, I., Garcia, M., Chase, P. B., Laitano, O., PIto, J., & Parvatiyar, M. S. (presented 2023, March). *Understanding the Impact of Cardiomyopathy Variants in the TNNT1 Gene on Skeletal Muscle Function*. Poster presentation at Advances in Muscle Biology Conference, University of Florida, Gainesville, FL. (International)

Rahimi Kahmini, A., Valera, I., Carbonell, A., Prascak, J., Mumbi, F., Parvatiyar, M. S., & Hwang, H. (presented 2023, February). *Compensatory calcium handling may underlie increased arrhythmia susceptibility of sarcospan-deficient mice after ischemia-reperfusion injury*. Poster presentation at Biophysical Society Meeting, The Biophysical Society, San Diego, CA. (International)

Mumbi, F., Landim-Vieira, M., Olateju, B., Coscarella, I., Chase, P., Pinto, J., & Parvatiyar, M. S. (presented 2023, February). *Investigating the Sarcolemma-Sarcomere Connection in Dictating Force Transmission in the Heart*. Poster presentation at Biophysical Society Meeting, Biophysical Society, San Diego, CA. (International)

Crawford, R., Valera, I., Pindado, J., Reis, G., Rahimi Kahmini, R., Mumbi, F., Parvatiyar, K., & Parvatiyar, M. S. (presented 2022, May). *Sarcospan-deficient mice exhibit a heightened inflammatory phenotype under obesiogenic conditions*. Poster presentation at Experimental Biology, American Physiological Society, Philadelphia, PA. (International) Retrieved from <https://doi.org/10.1096/fasebj.2022.36.S1.R6079>

Landim-Vieira, M., Childers, M., Wacker, A., Rodriguez Garcia, M., Singh, R., Brundage, E., Whitson, B., Janssen, P., Chase, P., Besiadecki, B., Regnier, M., Pinto, J., & Parvatiyar, M. S. (presented 2021, February). *Post-Translational Modifications in Human Beta-Myosin Heavy Chain*. Poster presentation at Biophysical Society Meeting, Biophysical Society, virtual due to Covid-19. (International)

Matthews, A., Valera, I., Crawford, R., Elsheikh, S., Hwang HS, & Parvatiyar, M. S. (presented 2021). *Establishing a Role for Sarcospan as an Obesity-Susceptibility Gene in Mice*. Presentation at Experimental Biology Meeting, American Physiological Society, virtual due to Covid-19. (International)

Salazar, G., Parvatiyar, M. S., Valera, I., Cullen, A., & Hwang, H. (presented 2021). *Reduction of P62/SQSTM1 on Calcium Handling in Stressed Myocytes*. Presentation at Experimental Biology Meeting, American Physiological Society, virtual due to Covid-19. (International)

Hwang, H., Pindado, J., Koh, Y., Parvatiyar, M. S., & Salazar, G. (presented 2020, April). *Protective Role of P62 Protein on Acute Ischemia-Induced Arrhythmia Susceptibility*. Poster presentation at Experimental Biology Meeting, American Physiological Society, San Diego, CA (cancelled due to Covid). (International)

Wacker, A., Elsheikh, S., Valera, I., Hwang, H., & Parvatiyar, M. S. (presented 2020, April). *Understanding Sarcospan Protein Function by Exposure of Mice to Beta-Adrenergic Stress Conditions*. Poster presentation at Experimental Biology Meeting, American Physiological Society, San Diego, CA (cancelled due to Covid). (International)

Coscarella, I., Vieira, M., Valera, I., Wacker, A., Chase, P., Pinto, J., & Parvatiyar, M. S. (presented 2020, February). *Connecting cardiac sarcolemma protein content with sarcomeric function*. Poster presentation at Biophysical Society Meeting, Biophysical Society, San Diego, CA. (International)

Wacker, A., Rodriguez Garcia, M., Vieira, M., Singh, R., Brundage, E., Whitson, B., Janssen, P., Chase, P., Biesiadecki, B., Parvatiyar, M. S., & Pinto, J. (presented 2020, February). *Reduced beta myosin heavy chain K213 Acetylation and T215 phosphorylation in human heart failure*. Poster presentation at Biophysical Society Meeting, Biophysical Society, San Diego, CA. (International)

Dieseldorf Jones, K., Vied, C., Valera, I., Chase, P., Parvatiyar, M. S., & Pinto, J. (presented 2020, February). *Sex differences in regulating the cardiac transcriptome within a murine model for hypertrophic cardiomyopathy*. Presentation at Biophysical Society Meeting, Biophysical Society, San Diego, CA. (International)

Tadros, H., Life, C., Garcia, G., Jones, E., Gong, D., Parvatiyar, M. S., Allen, H., Kim, J., Yan, N., Pinto, J., & Landstrom, A. (presented 2018, November). *Amino acid-level signal-to-noise analysis of rare variants in the troponin complex identifies "hot spots" associated with early heart failure, increased mortality, and sudden death*. Poster presentation at American Heart Association Meeting - General Sessions, American Heart Association, Chicago, IL. (International)

Parvatiyar, M. S., Kanashiro Takeuchi, R., Dieseldorf Jones, K., Brownstein, A., Collado, J., Gopal, J., Hammond, K., Pinto, J., & Crosbie-Watson, R. (presented 2018, June).

Sarcospan rescues cardiac function in Duchenne muscular dystrophy mouse models in the absence of abundant utrophin upregulation. Poster presentation at New Directions in Biology and Disease of Skeletal Muscle Conference, Wellstone Foundation, New Orleans, LA. (International)

Parvatiyar, M. S., Nguyen, R., Jordan, M., Roos, K., & Crosbie-Watson, R. (presented 2016, July). *Sarcospan has a protective effect during the development of cardiac disease.* Poster presentation at Basic Cardiovascular Sciences Meeting, American Heart Association, Phoenix, AZ. (International)

Parvatiyar, M. S., Nguyen, R., Gopal, J., Jordan, M., Marshall, J., Roos, K., & Crosbie-Watson, R. (presented 2016, June). *Transgenic and AAV introduction of sarcospan stabilizes the cell membrane in the DMD heart.* Poster presentation at New Directions in Biology and Disease of Skeletal Muscle Conference, University of Florida, Orlando, FL. (National)

Parvatiyar, M. S., Marshall, J., Nguyen, R., Jordan, M., Richardson, V., Roos, K., & Crosbie-Watson, R. (presented 2014, July). *The role of sarcospan in cardiac sarcolemma organization and function.* Poster presentation at Basic Cardiovascular Sciences Meeting, American Heart Association, Las Vegas, NV. (International)

Parvatiyar, M. S., Marshall, J., Jordan, M., Nguyen, R., Richardson, V., Roos, K., & Crosbie-Watson, R. (presented 2014, June). *Beta adrenergic stimulation reveals a role for sarcospan in cardiac hypertrophy.* Poster presentation at New Directions in Biology and Disease of Skeletal Muscle Conference, University of Florida, Chicago, IL. (International)

Parvatiyar, M. S., Lopez, T., Franklin, S., & Vondriska, T. (presented 2013, July). *Distinctive roles of linker histone variants in the hypertrophic response of cardiomyocytes.* Poster presentation at Basic Cardiovascular Sciences Meeting, American Heart Association, Las Vegas, NV. (International)

Parvatiyar, M. S., Franklin, S., Chen, H., Wang, Y., & Vondriska, T. (presented 2012, April). *Cardiac linker histones are differentially regulated following hypertrophic stimuli.* Poster presentation at Experimental Biology Meeting, American Physiological Society, San Diego, CA. (International)

Parvatiyar, M. S., Liang, J., Jones, M., Potter, J., & Pinto, J. (presented 2012, February). *Pseudophosphorylation of cardiac troponin I containing the RCM troponin T deletion glutamic acid 96 is not an accurate indicator of the phosphorylation effects by PKA in skinned fibers.* Poster presentation at Biophysical Society Meeting, Biophysical Society, San Diego, CA. (International)

Parvatiyar, M. S., Yang, S., Pinto, J., Jones, M., Liang, J., Andelfinger, A., & Potter, J. (presented 2010, February). *Functional consequences of a novel cardiac troponin T mutation linked to infantile restrictive cardiomyopathy.* Poster presentation at Biophysical Society

Meeting, Biophysical Society, San Francisco, CA. (International)

Dweck, D., Pinto, J., Reynaldo, D., Parvatiyar, M. S., Jones, M., Sorenson, M., & Potter, J. (presented 2010, February). *Strong crossbridges are required to recapitulate the Ca²⁺ affinity changes produced by HCM-cTnC mutants in skinned fibers*. Poster presentation at Biophysical Society Meeting, Biophysical Society, San Francisco, CA. (International)

Parvatiyar, M. S., Pinto, J., Liang, J., Jones, M., & Potter, J. (presented 2009, February). *Troponin T deletion 96 related to restrictive cardiomyopathy ablates the effects of cardiac troponin I PKA pseudo-phosphorylation on Ca²⁺ sensitivity of force development*. Poster presentation at Biophysical Society Meeting, Biophysical Society, Boston, MA. (International)

Parvatiyar, M. S., Pinto, J., Jones, M., & Potter, J. (presented 2008, February). *Functional effects of newly discovered cardiac troponin C HCM mutations*. Poster presentation at Biophysical Society Meeting, Biophysical Society, Long Beach, CA. (International)

Landstrom, A., Parvatiyar, M. S., Pinto, J., Marquardt, M., Bos, J., Ommen, S., Potter, J., & Ackerman, M. (presented 2007, November). *Molecular and functional characterization of novel hypertrophic cardiomyopathy susceptibility mutations in TNNTC1-encoded troponin C*. Poster presentation at American Heart Association Meeting - General Sessions, American Heart Association, Orlando, FL. (International)

Parvatiyar, M. S., Jones, M., Pinto, J., Liang, J., & Potter, J. (presented 2007, February). *The glutamine 96 deletion in human cardiac troponin T associated with infantile restrictive cardiomyopathy increases the Ca²⁺ sensitivity of force in skinned muscle fibers*. Poster presentation at Biophysical Society Meeting, Biophysical Society, Baltimore, MD. (International)

Parvatiyar, M. S., Liang, J., & Potter, J. (presented 2006, February). *Effects of troponin C mutants with altered calcium affinities on Ca²⁺ sensitivity of force development*. Poster presentation at Biophysical Society Meeting, Biophysical Society, Salt Lake City, UT. (International)

Staton, T., Stegemeyer, M. A., Parvatiyar, K., Paul, R., & Strauch, A. (presented 2004, April). *Overexpression of alpha 1 and alpha 2-isoform specific Na⁺ -K⁺ -ATPase in mouse smooth muscle*. Poster presentation at Experimental Biology Meeting, American Physiological Society, Washington, DC. (International)

Weber, C., Shelly, D., Stegemeyer, M. A., Lingrel, J., Nullmeyer, K., Lynch, R., & Paul, R. (presented 2003, February). *Coupling of the Na⁺, K⁺-ATPase alpha 2-isoform to excitation-contraction coupling in vascular smooth muscle*. Poster presentation at Experimental Biology Meeting, American Physiological Society, San Diego, CA. (International)

Invited Lectures and Readings of Original Work

Parvatiyar, M. S. (2022, November). *Alterations in Post-translational modification patterns on β-myosin heavy chain in ischemic and non-ischemic human hearts.* Delivered at The Ohio State University, Department of Physiology and Cell Biology, Columbus, OH. (National)

Parvatiyar, M. S. (2022, October). *Obesity Susceptibility and Sarcospan.* Delivered at Ohio University, Ohio University, Heritage College of Osteopathic Medicine, Athens, OH. (National)

Parvatiyar, M. S. (2022, June). *Post-translational modification patterns on β-myosin heavy chain are altered in ischemic and non-ischemic human hearts.* Delivered at International Sarcomere Society, University of Washington, Seattle, WA, Center for Translational Muscle Research. (International)

Parvatiyar, M. S. (2019, November). *Remodeling the Cardiac Sarcolemma to Improve Disease Outcomes.* Delivered at FAMU-Florida State University, Tallahassee, FL. (Local)

Parvatiyar, M. S. (2019, March). *Understanding how sarcolemmal remodeling influences disease.* Delivered at Florida State University, Tallahassee, FL. (Local)

Parvatiyar, M. S. (2018, December). *Recruitment of sarcolemma proteins by sarcospan rescues Duchenne muscular dystrophy associated cardiomyopathy.* Delivered at The Florida State University, Institute of Molecular Biology, Tallahassee, FL. (Local)

Parvatiyar, M. S. (2017, August). *Exploring membrane stabilization and cellular adhesion as a strategy to ameliorate cardiac disease.* Delivered at University of Cincinnati, Department of Internal Medicine, Cincinnati, OH. (National)

Parvatiyar, M. S. (2016, September). *Exploring membrane stabilization and cell adhesion as a strategy to ameliorate cardiac disease.* Delivered at Florida State University, Tallahassee, FL. (National)

Contracts and Grants

Contracts and Grants Funded

Parvatiyar, M. S., & Gordon, B. (Mar 2023). *Generating A Novel Mouse To Test The Role Of Sarcospan In The Development Of Skeletal Muscle Weakness With Advancing Age.* Submitted to Institute of Successful Longevity/Florida State University.

Parvatiyar, M. S. (Aug 2022–Aug 2023). *McKnight Foundation Junior Faculty Award.* Funded by Florida Education Fund. Total award \$20,000.

Parvatiyar, M. S. (PI), & Holmes, CA (co-I). (May 2021–May 2023). *Development of a Novel Therapeutic Strategy to Reduce Cardiac Injury after Myocardial Infarction*. Funded by FSU Council on Research and Creativity Planning Grant (PG). Total award \$25,000.

Parvatiyar, M. S., Salazar, G., Hwang, H., & Bamber, M. (May 2021–May 2024). *Determining how tobacco use and obesity exacerbates a novel cardiovascular risk factor*. Funded by James and Esther King Biomedical Research Program. (21K12). Total award \$535,396.

Parvatiyar, M. S., Valera, I., Hwang, H. S., & Salazar, G. (May 2020–Aug 2020). *Understanding genetic, pharmaceutical and environmental factors increasing risk of SARS-CoV-2 infection*. Funded by FSU - Collaborative Collision. Total award \$20,000.

Steiner, J., Gordon, B., La Favor, J., Parvatiyar, M. S., Fadool, D., Singh, P., Hennigar, S., Delp, J., Spector, A., Williams, D., Hammock, E., Lee, C., Storace, D., & Delp, M. (May 2019–Aug 2019). *Purchase of EchoMRI to assess body composition in Mice, Rats and Tissue specimens*. Funded by FSU CRC. Total award \$70,000.

Parvatiyar, M. S. (May 2019–Aug 2019). *Exploring Sex-Dependent Factors Governing a Novel Driver of Obesity*. Funded by FSU CRC. Total award \$20,000.

Parvatiyar, M. S. (PI). (Aug 2018–Aug 2021). *Startup - M. Parvatiyar*. Funded by FSU. Total award \$321,373.

Parvatiyar, M. S. (co-I), & Crosbie-Watson, RH (PI). (Aug 2016–Jul 2020). *Restoration of muscle adhesion to treat cardiomyopathy in muscular dystrophy*. Funded by NIH. (1R01HL126204-01A1). Total award \$1,540,000.

Parvatiyar, M. S. (PI). (Jul 2016–Jun 2019). *Exploring Muscle Cell Adhesion as a Therapeutic Strategy in the Heart*. Funded by American Heart Association. Total award \$231,000.

Parvatiyar, M. S. (co-I), & Crosbie-Watson, RH (PI). (Jul 2016–Jun 2019). *Improving cell adhesion to protect the dystrophic cardiac sarcolemma*. Funded by Muscular Dystrophy Association. (MDA 41634). Total award \$300,000.

Parvatiyar, M. S. (PI). (Jun 2014–Dec 2004). *Exploring the therapeutic potential of sarcospan in dystrophin cardiomyopathies*. Funded by CureDuchenne. Total award \$25,000.

Parvatiyar, M. S. (co-I), & Crosbie-Watson, RH (PI). (Aug 2013–Jul 2014). *Investigation of cardiomyopathy in sarcospan deficiency*. Funded by UCLA - CTSI Core Facilities Grant. (UL1TR000124). Total award \$50,000.

Parvatiyar, M. S. (PI). (Aug 2011–Jul 2013). *Role of linker histone variants in cardiac phenotype in health and disease*. Funded by NIH. (1F32HL110632-01). Total award \$145,194.

Parvatiyar, M. S. (PI). (Jul 2009–Oct 2010). *Characterization of cTnC mutations related to HCM, RCM and DCM in knock-in mice*. Funded by American Heart Association. (09POST2300030). Total award \$83,972.

Parvatiyar, M. S. (Jul 2007–Jun 2009). *University of Miami -Training Program in Cardiovascular Signaling*. Funded by NIH. (2 T32 HL007 188 31A1). Total award \$52,000.

Parvatiyar, M. S. (PI). (Jul 2005–Jun 2007). *Assessment of calcium sensitivity of force development of cardiac troponin C mutants with altered calcium sensitivities*. Funded by American Heart Association. (0515211B). Total award \$42,000.

Contracts and Grants Pending

Parvatiyar M. S. (co-PI), Chase P. B. (Co-PI), Yang W. (co-PI), & Pinto J. (co-PI) (Nov 2023). *Troponin Molecular Signatures in Health and Disease*. R01 Grant. Submitted to National Institutes of Health.
